The Tuscany group of musicians and flagplayers "Musici e Sbandieratori Comune di Pomarance" was founded in 1986 with the XVI° Historical Palio of the Quarters and became a Legally Acknowledged Association on the first December 1989.

The Group consists of young flagplayers, musicians and a banner-bearer. The Group parades in different cities to promote the spectacular flag throwing and to bring to the present time a traditional scene from medioeval times.

The beautiful choreography, the original costumes and the high technical performance are present as the Group performs in the piazza's of the whole of Italy and also in foreign countries. The Group performs during folk and historical events and festivals giving each time a singular performance.

SECURITY WARNING :

To allow for a better performance and to guarantee the spectators' safety we need an adequate restricted area.
